MCI guidelines for preparing the class routine :

The total duration of 1st and 2nd Semesters will be approximately 240 teaching days i.e. $240/6=40$ weeks

Each semester will be of 20 weeks duration

Allotment of hours: For Community Medicine= 60 hours

50 % of the remaining hours will be allotted to Anatomy

And of the other 50% hours- $2/3^{\text{rd}}$ will be allotted to Physiology and $1/3^{\text{rd}}$ will be allotted to Biochemistry

Total duration for Anatomy = 650 hours

Total duration for Physiology = 480 hours

Total duration for Biochemistry = 240 hours

The duration for theory classes should be less than 50% of the total duration

From the above routine :

Anatomy will get total duration of : 780 hours

Physiology will get total duration of: 520 hours

Biochemistry will get total duration of: 260 hours

Community Medicine will get total duration of: 60 hours
